

PRIVATE PARTNERSHIP & BOARD PARTICIPATION PROSPECTUS

Immovables Realty - Private Partnership & Board Participation Prospectus

Introduction

Immovables Realty is a premier Nigerian real estate company with a bold vision to transform residential and commercial property investment. To achieve this vision, we have designed a sustainable, globally-aligned partnership framework that welcomes investors at every level, while safeguarding the company's long-term stability and growth.

This document outlines restructured private partnership models that balance attractive outcomes for partners with financial prudence for the company, ensuring longevity and credibility in the market.

1. Growth Partners (₦7 Million – ₦50 Million)

Partnership Structure:

Growth Partners support select projects under structured participation agreements. They enjoy performance-linked appreciation benefits targeted at 12–15% annually. In addition, bonus participation (3–5%) is tied to the performance of specific estate projects.

Engagement Period: 2 years minimum, with flexibility to transfer participation to incoming partners.

Why It Works:

Protects Immovables from unsustainable fixed commitments.

Offers Growth Partners steady performance with upside potential.

2. Development Partners (₦50 Million – ₦300 Million)

Partnership Structure:

Development Partners engage directly in specific estate development projects.

They are entitled to profit participation of up to 25–35% from such projects.

Profits are calculated after expenses and taxes for full transparency.

Convertible Option: After 3 years, Development Partners may convert accumulated project returns into equity shares in Immovables Realty.

Why It Works:

Aligns returns with project success, creating true partnership.

The optional equity conversion fosters long-term loyalty.

3. Strategic Equity Partners (\$1M+ or ₦1 Billion+)

Partnership Structure:

Strategic Partners may acquire a 10–14% equity stake, depending on investment size.

Engagement Period: 5–7 years before exit/resale.

Benefits include:

Annual dividend distributions (target 10–12% of distributable profit).

Equity value appreciation in line with Immovables Realty's valuation growth.

Why It Works:

Returns are based only on actual distributable profits.

Partner interests are aligned with company expansion and value creation.

4. Board Participation Partners (₦100 Million – ₦500 Million)

Partnership Structure:

Partners may secure Board representation with 2% – 10% equity ownership.

Annual entitlements:

Profit distributions proportional to equity (based on distributable profit).

Board sitting allowances of ₦5m – ₦14m, depending on performance and meetings.

Exit/Resale: Eligible after 7 years, valued at Immovables Realty's updated market valuation.

Why It Works:

Offers both financial participation and governance influence.

Compensation linked to performance ensures sustainability.

5. Why Partner With Immovables Realty

Balanced Risk & Reward: Options tailored to different investor profiles.

Global Best Practices: Structured like international private equity partnerships and REIT models, adapted for Nigeria's real estate landscape.

Sustainability First: Performance-linked payouts, not unrealistic promises.

Prestige & Influence: Board partners gain governance input and recognition alongside financial participation.

Conclusion

Immovables Realty has developed a transparent, sustainable, and growth-driven partnership framework. By offering multiple entry points, every partner from individuals seeking stable appreciation to high-net-worth investors seeking influence has a clear pathway to participate.

This is more than a transaction; it is an invitation to be part of Nigeria's next great real estate success story.

Disclaimer & Important Notice

This document ("Prospectus") has been prepared by Immovables Realty for the exclusive and private use of selected prospective partners. It is intended solely to provide general information about partnership opportunities with Immovables Realty and does not constitute, and should not be construed as, an offer or solicitation to the general public to sell, issue, or solicit securities of any kind.

1. Regulatory Status

This is a private invitation, not a public offering.

Participation is subject to mutual agreement under the provisions of the Companies and Allied Matters Act (CAMA), Laws of the Federation of Nigeria.

The proposals herein are not registered with the Securities and Exchange Commission (SEC) and are therefore restricted to private contractual arrangements.

2. Nature of Returns

All references to “returns,” “dividends,” or “profit participation” are illustrative targets based on project performance and company profitability.

They should not be considered as guaranteed earnings or fixed interest.

Outcomes are subject to real estate market conditions, company performance, and other risk factors.

3. Risk Factors

Prospective partners should carefully consider risks including but not limited to:

Real estate market fluctuations.

Project delivery timelines.

Regulatory and policy changes in Nigeria.

Force majeure events (e.g., economic shocks, natural disasters).

4. Confidentiality

This document is strictly confidential and may not be reproduced, distributed, or disclosed to third parties without prior written consent from Immovables Realty.

5. Advisory Note

Prospective partners are strongly advised to seek independent legal, tax, and financial advice before entering into any agreement with Immovables Realty.
